Dear Sir/Madam,

**Re: Big Data Engineer**

I am writing to apply for the position of Big Data Engineer.

I am a graduate of Masters in Computer Science with 16+ years of experience in software development industry. In my career I have served as a Manager and full stack developer of web based and desktop based applications in various companies. Currently I am working as a Manager, Software development and support at NIB International Bank.

Tech stacks that I have worked on include Java, JavaSpringboot, C#, ReactJS, Python, Angular, NodeJs, ExpressJs, Docker, Ansible, Jenkins, CI/CD, DevOps, Scrum, .Net Framework, Net Core, ASP.Net, web services, SQL, Web APIs (REST API), WCF, JavaScript, HTML/CSS, JQuery, SignalR, Knock out, AJAX, Microsoft SQL Server for database development, IIS web server, and Git/GitHub. I have strong problem solving skill, time management skill, eager to learn, enthusiastic about programming. I consider the position as a great opportunity to contribute my expertise for the successful completion of my assignments moreover, upgrade my skills by working with world class developers at a world class company.

Thank you for taking the time to assess my application. Please don't hesitate to contact me at [biruk.abel@yahoo.com](mailto:biruk.abel@yahoo.com) or (+251)-912020941. I'd be happy to schedule an interview to go over my work-experience or qualifications in more detail. I'll be looking forward to hearing from you.

Sincerely,

Biruk Abel
